Skills

- **Languages:** JavaScript, TypeScript, Python, Go, C++.
- **Frameworks:** Express.js, Node.js, React.js, Next.js
- **Databases / Caching:** PostgreSQL, Supabase, MongoDB, Redis, SQL
- **Tools & Testing:** Git, GitHub, Auth.js, Postman, VS Code, Cursor, Prisma
- **Cloud / DevOps:** Linux, AWS, Docker, Shell, GitLab.

Professional Experience

Full Stack Developer, Knaptix Ventures Private Limited

June 2025 – Present

- Built scalable web applications with Next.js, improving load speed by 30% and ensuring production-grade performance.
- Delivered 4+ client projects with React/Next.js, adding responsive features that increased user engagement by 20%.
- Designed RESTful backend APIs in Node.js, reducing server response times by 25% and enabling seamless data flow.
- Optimized MongoDB database schemas, improving query efficiency by 35% and supporting scalable workflows.
- **Technologies:** React, Next.js, Node.js, Express.js, MongoDB

Software Developer Intern, Clinicspots

June 2024 – August 2024

- Engineered high-conversion PPC landing pages for multiple hospitals using HTML, CSS, and Bootstrap, increasing patient inquiries by 25% and driving measurable growth in digital outreach efforts.
- Optimized website performance with JavaScript improvements and Google PageSpeed Insights recommendations, reducing page load times by 30% and significantly enhancing Core Web Vitals metrics.
- Developed a dynamic lead generation system leveraging responsive design principles, which boosted user engagement by 40% and improved conversion rates by 15%, resulting in more qualified patient inquiries.
- **Technologies:** HTML, CSS, Bootstrap, JavaScript, Google PageSpeed Insights

Projects

Labelify – Full-Stack Blockchain DApp

- Built a decentralized task management app using Solana blockchain, achieving faster transaction speeds and supporting peer-to-peer payments for thousands of users.
- Developed secure file uploads via AWS S3 pre-signed URLs, enhancing security compliance and enabling scalable, multi-region content storage.
- **Technologies:** Next.js 15, Express.js, Tailwind CSS, PostgreSQL, Solana Blockchain

Schedulux – Smart Scheduling Platform

- Architected a streamlined scheduling system using Next.js 15, PostgreSQL, and Prisma ORM to reduce booking friction and enhance user experience.
- Connected real-time availability and calendar sync via Nylas API, enabling automatic updates for thousands of appointments weekly and enhancing scheduling accuracy.
- **Technologies:** Next.js 15, PostgreSQL, Supabase, Auth.js, Nylas API, Prisma ORM

Snippychat – Real-Time Chat App

- Built a scalable group chat platform supporting thousands of concurrent users by integrating joinable URLs and access-controlled rooms, significantly enhancing user engagement.
- Enhanced real-time messaging with Socket.io and Redis, reducing message latency and significantly boosting system throughput.
- **Technologies:** Next.js 15, Express.js, TypeScript, PostgreSQL, Prisma, Socket.io, Redis

Education

B.Tech in Computer Science and Engineering

Aug 2022 – July 2026

Jaypee University of Engineering and Technology, Guna

Relevant Coursework: Data Structures and Algorithms, Databases, Operating Systems, Software Engineering
